

HitecVision New Energy Fund 2

WEBSITE PRODUCT DISCLOSURE

(In accordance with Article 10(1) of Regulation (EU) 2019/2088)

Summary

HitecVision New Energy Fund 2 (the **Fund**) is a closed-ended, alternative investment fund seeking commitments from professional investors only.

The Fund's sustainable investment objective is to contribute to climate change mitigation by investing in portfolio companies with the potential to contribute to reducing global greenhouse gas emissions and/or increasing renewable energy capacity and production. The Fund will make investments in or linked to the energy sector, except for exploration, production, transportation and storage of coal, oil, natural gas and nuclear power (however, this shall not exclude investments in or linked to carbon capture, use or storage (**CCUS**)).

All investments of the Fund will be aligned with the Fund's sustainable investment objective. Monitoring of the sustainability indicators used to measure the attainment of the sustainable investment objective is done by regularly obtaining data directly from portfolio companies. The attainment of the Fund's sustainable investment objective is not expected to be affected by limitations to methodologies or data.

Pre-investment due diligence and post-investment engagement are applied to attain the Fund's sustainable investment objective as further described in HitecVision's responsible investment policy (the **Responsible Investment Policy**).

Translations of this summary is included in Appendix 1.

No significant harm to the sustainable investment objective

For each portfolio company, HitecVision conducts a materiality analysis to analyse and grade potential ESG issues. Each potential investment will be screened against the principal adverse impacts on sustainability factors prior to making an investment decision. In addition to monitoring and reporting on adverse impacts, several other control mechanisms apply to ensure no significant harm, including, inter alia, ESG due diligence and portfolio engagement.

During the ownership period, all investments shall report to HitecVision on a quarterly basis on ESG issues, including the indicators for principal adverse impacts on sustainability factors. Based on the quarterly reporting, HitecVision will ensure that no investments cause significant harm by quantitative and qualitative assessments.

All of the Fund's investments must align with the OECD Guidelines for Multinational Enterprises

and the UN Guiding Principles on Business and Human Rights including the principles and rights set out in the eight Fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

Compliance with these internationally recognised principles is part of the due diligence process applied to potential investments, where HitecVision seeks to ensure that the potential investments have implemented adequate governance models relating to, among other things, environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. As part of this process, HitecVision not only ensures the presence of adequate governance models but also assesses whether the potential investments' own due diligence practices align with the standards set by the OECD and UN Guiding Principles.

Sustainable investment objective of the financial product

The sustainable investment objective of the Fund is to contribute to climate change mitigations, by investing in and building companies that support the energy transition. To attain the sustainable investment objective, the Fund shall invest in portfolio companies with the potential to contribute to reducing greenhouse gas emissions and/or increasing renewable energy capacity and production. The Fund will invest in and build companies focused on renewable power and electrification, sustainable fuels, as well as circular and efficient energy systems.

Investment strategy

The Fund shall seek to make equity and equity-related investments in or linked to the energy sector, except for exploration, production, transportation and storage of coal, oil, natural gas and nuclear power (however, this shall not exclude investments in or linked to CCUS).

The Fund will seek to invest in opportunities in the European energy transition and focus on investments across three core energy transition investment themes:

- **Renewable power and electrification.** Increase renewable power capacity to decarbonise the power mix and electrify industry and transport
- **Sustainable fuels .** Decarbonisation of hard-to-abate sectors such as marine, aviation, steel and cement, requiring development of sustainable fuels.
- **Circular and efficient energy systems.** Creating more inter-connected and circular systems, focused on energy efficiency, re-use and recycling.

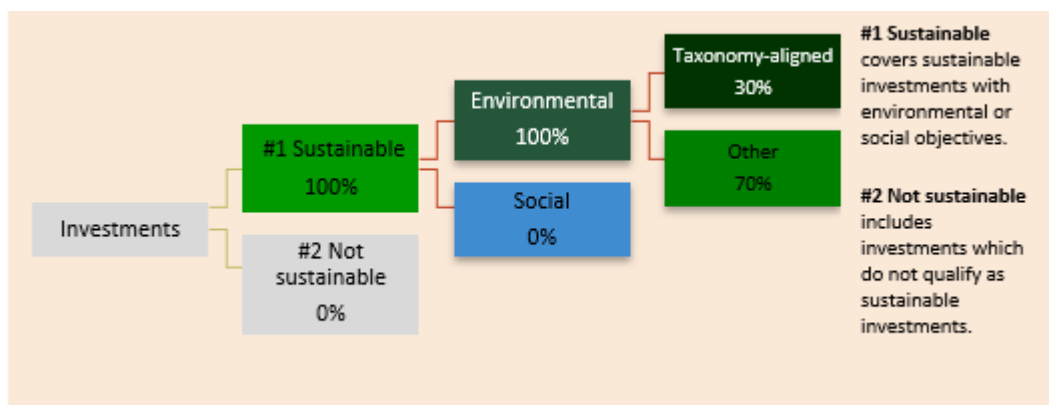

The governance practices of a potential portfolio company, including with respect to sound management structures, employee relations, remuneration of staff and tax compliance, will be assessed in the due diligence process. All portfolio companies will be required to comply with

applicable laws, rules and regulations in the markets in which they operate, including environmental, labour, anti-corruption and anti-money laundering laws and regulations.

When working with the portfolio companies, HitecVision places responsibility for ESG issues with the companies' boards of directors. Where HitecVision holds controlling interests in a portfolio company, HitecVision will implement its governance model for portfolio companies, which includes a set of board guidelines/rules of procedure and a model compliance programme, developed by HitecVision.

Proportion of investments

All of the Fund's investments in portfolio companies will be aligned with the Fund's sustainable investment objective. However, the Fund is likely to have some cash or cash equivalent holdings for ancillary liquidity purposes. The Fund is committed to making a minimum 30% proportion of investments with an environmental objective aligned with the EU Taxonomy.

All exposure is expected to be direct.

Monitoring of the sustainable investment objective

For a minimum of 30% of the Fund's investments, the alignment of the portfolio companies' activities with the requirements of the EU Taxonomy climate change mitigation objective will be a way to show the attainment of the Fund's objective. For the remaining investments, sustainability indicators used to measure the attainment of the Fund's sustainable investment objective include (i) renewable energy (electricity and fuels) capacity built or contracted to be built measured in MW, (ii) renewable energy (electricity and fuels) generated measured by MWh, and (iii) current and future greenhouse gas emissions avoided and/or reduced due to the activities of the portfolio companies measured in CO2 equivalents.

The sustainability indicators and other relevant KPIs, such as the principal adverse impacts, are

monitored through regular engagement with and reporting from portfolio companies and are generally reviewed and assessed internally. External third-party verification of select portfolio companies of HitecVision is performed annually, which in any given year may include data reported from portfolio companies of the Fund.

Methodologies

In order to measure the attainment of the sustainable investment objective of the Fund, the potential for greenhouse gas emission reductions and/or increased renewable energy capacity and production of each investment opportunity is assessed and quantified, where feasible. For Taxonomy-eligible activities, the contribution to climate change mitigation will, where practically feasible with regards to data availability, be determined by use of the technical screening criteria in the EU Taxonomy for environmentally sustainable economic activities.

To ensure transparency and enable emission comparison, methods for calculating and accounting emissions will be based on globally recognized guidance, such as the GHG Protocol or equivalent. Other than that, relevant methodologies to measure the Fund's attainment of the sustainable investment objective will be selected for each investment, in all cases focusing on the sustainability indicators for the Fund.

Data sources and processing

- a) Data are expected to be provided directly from the prospective or actual investee companies.
- b) Data quality is expected to be ensured through regular due diligence activities.
- c) Data will be processed in-house.
- d) Data collected to measure the sustainability indicator related to avoided and/or reduced GHG emissions will necessitate the use of certain estimations. Other than that, it is expected that only a minor proportion of data will need to be estimated.

Limitation to methodologies and data

As the methodologies will be selected and tailored to each investment, it is not possible to state any general limitations. As far as possible, the methodologies selected will be based on standard industry practice. This also includes the methodology to collect data related to avoided and/or reduced GHG emissions, which is largely expected to be based on estimated data. Such limitations are not expected to affect the sustainable investment objective of the Fund.

Due diligence

Due diligence is performed in accordance with HitecVision's due diligence procedures and the Responsible Investment Policy. HitecVision will assess how potential investments align with the

sustainable investment objective of the Fund. This sustainability assessment requires investments to demonstrate i) potential for contributing to reducing greenhouse gas emissions and/or increasing renewable energy capacity and production, ii) principal adverse impact indicators that ensure no significant harm to other environmental or social sustainable investment objectives, and iii) that good governance practices and social safeguards are in place.

Prior to making investment decisions, the investment team is required to complete a compliance checklist confirming alignment with the above-mentioned criteria. The compliance checklist is reviewed and assessed by HitecVision's compliance committee.

Engagement policies

Engagement with portfolio companies will be performed in accordance with HitecVision's regular procedures and the Responsible Investment Policy. To ensure transparency and facilitate progress on ESG issues, portfolio investments are required to deliver quarterly ESG reports to HitecVision and actively participate in biannual ESG meetings with the team.

Attainment of the sustainable investment objective

The Fund will not use a reference benchmark.

Language	Summary
Norwegian	<p>HitecVision New Energy Fund 2 (Fondet) er et lukket alternativt investeringsfond som søker kommitteringer kun fra profesjonelle investorer.</p> <p>Fondet sitt bærekraftige investeringsmål er å bidra til å redusere og forebygge klimagassutslipp, ved å investere i porteføljeselskaper med potensial til å bidra til reduksjon av globale klimagassutslipp og/eller økt produksjon og kapasitet av fornybar energi. Fondet vil investere i selskaper involvert i eller med tilknytning til energisektoren, med unntak av leting etter, samt produksjon, transportering og lagring av, kull, olje, naturgass eller atomkraft (det forannevnte skal ikke være til hinder for at Fondet gjør investeringer knyttet til karbonfangst, utnyttelse og lagring).</p> <p>Alle investeringer skal være forenlige med Fondets bærekraftige investeringsmål. Bærekraftsindikatorne brukt til å måle oppnåelsen av Fondets bærekraftige investeringsmål monitoreres ved jevnlig innhenting av data direkte fra porteføljeselskapene. Det er ikke forventet at eventuelle begrensninger relatert til metodikk eller data vil påvirke det bærekraftige investeringsmålet til Fondet.</p> <p>Due diligence før investeringer, og oppfølging av porteføljeselskaper etter investeringer, er sentralt for å oppnå Fondets bærekraftige investeringsmål, som beskrevet i HitecVisions «responsible investment policy».</p>
Danish	<p>HitecVision New Energy Fund 2 (Fonden) er en lukket, alternativ investeringsfond, der kun søger forpligtelser fra professionelle investorer.</p> <p>Fondens bæredygtige investeringsmål er at bidrage til bekæmpelse af klimaændringer ved at investere i porteføljeselskaber med potentiale til at bidrage til at reducere globale drivhusgasemissioner og/eller øge kapaciteten og produktionen af vedvarende energi. Fonden vil foretage investeringer i eller relateret til energisektoren, undtagen efterforskning, produktion, transport og opbevaring af kul, olie, naturgas og atomkraft (dette skal dog ikke udelukke investeringer i eller relateret til kulstofopsamling, -brug eller -lagring).</p> <p>Alle Fondens investeringer vil være i overensstemmelse med Fondens bæredygtige investeringsmål. Overvågning af bæredygtighedsindikatorerne, der bruges til at måle opnåelsen af det bæredygtige investeringsmål, sker ved regelmæssigt at indhente data direkte fra porteføljeselskaberne. Opnåelsen af Fondens bæredygtige</p>

	<p>investeringsmål forventes ikke at blive påvirket af begrænsninger i metoder eller data.</p> <p>Pre-investering due diligence og post-investering engagement anvendes for at opnå Fondens bæredygtige investeringsmål, som yderligere beskrives i HitecVisions «responsible investment policy».</p> <p><i>[Bemærk, at ovenstående tekst er oversat ved hjælp af kunstig intelligens (AI) - I tilfælde af eventuelle uoverensstemmelser mellem den engelske tekst og denne oversættelse, skal den engelske tekst gå forud.]</i></p>
<p>Swedish</p>	<p>HitecVision New Energy Fund 2 (Fonden) är en sluten, alternativ investeringsfond som endast söker åtaganden från professionella investerare.</p> <p>Fondens hållbara investeringsmål är att bidra till att motverka klimatförändringar genom att investera i portföljbolag med potential att bidra till att minska globala växthusgasutsläpp och/eller öka kapaciteten och produktionen av förnybar energi. Fonden kommer att göra investeringar i eller kopplade till energisektorn, med undantag för prospektering, produktion, transport och lagring av kol, olja, naturgas och kärnkraft (dock ska detta inte utesluta investeringar i eller kopplade till koldioxidinfångning, användning eller lagring).</p> <p>Alla Fondens investeringar kommer att vara i linje med Fondens hållbara investeringsmål. Övervakning av de hållbarhetsindikatorer som används för att mäta uppnåendet av det hållbara investeringsmålet görs genom att regelbundet erhålla data direkt från portföljbolagen. Uppnåendet av Fondens hållbara investeringsmål förväntas inte påverkas av begränsningar i metoder eller data.</p> <p>Pre-investerings due diligence och post-investeringsengagemang tillämpas för att uppnå Fondens hållbara investeringsmål som ytterligare beskrivs i HitecVisions «responsible investment policy».</p> <p><i>[Observera att ovanstående text har översatts med hjälp av artificiell intelligens (AI) - Vid eventuella avvikelser mellan den engelska texten och denna översättning, ska den engelska texten ha företräde]</i></p>
<p>Finnish</p>	<p>HitecVision New Energy Fund 2 (Rahasto) on suljettu, vaihtoehtoinen sijoitusrahasto, joka hakee sitoumuksia ainoastaan ammattimaisilta sijoittajilta.</p> <p>Rahaston kestävä sijoituksen tavoitteena on edistää ilmastonmuutoksen hillitsemistä sijoittamalla portfolioyhtiöihin, joilla on potentiaalia vähentää</p>

	<p>maailmanlaajuisia kasvihuonekaasupäästöjä ja/tai lisätä uusiutuvan energian kapasiteettia ja tuotantoa. Rahasto tekee sijoituksia energia-alalle tai siihen liittyen, lukuun ottamatta hiilen, öljyn, maakaasun ja ydinvoiman etsintää, tuotantoa, kuljetusta ja varastointia (tämä ei kuitenkaan sulje pois sijoituksia hiilidioksidin talteenottoon, käyttöön tai varastointiin).</p> <p>Kaikki Rahaston sijoitukset ovat linjassa Rahaston kestävän sijoituksen tavoitteen kanssa. Kestävän sijoituksen tavoitteen saavuttamista mittaavien kestävyysindikaattorien seuranta tehdään säännöllisesti hankkimalla tietoja suoraan portfolioyhtiöiltä. Rahaston kestävän sijoituksen tavoitteen saavuttamisen ei odoteta olevan rajoitettu menetelmien tai tietojen rajoituksista.</p> <p>Sijoitusta edeltävä due diligence ja sijoituksen jälkeinen sitoutuminen sovelletaan saavuttaaksemme Rahaston kestävän sijoituksen tavoitteen, kuten tarkemmin kuvataan HitecVisionin “responsible investment policy”.</p> <p><i>[Huomaa, että yllä oleva teksti on käännetty käyttäen tekoälyä (AI) - Mikäli englanninkielisen tekstin ja tämän käännöksen välillä on eroavaisuuksia, englanninkielinen teksti on etusijalla]</i></p>
<p>French</p>	<p>HitecVision New Energy Fund 2 (le Fonds) est un fonds d'investissement alternatif fermé qui recherche des engagements uniquement de la part d'investisseurs professionnels.</p> <p>L'objectif d'investissement durable du Fonds est de contribuer à l'atténuation du changement climatique en investissant dans des sociétés de portefeuille ayant le potentiel de contribuer à la réduction des émissions mondiales de gaz à effet de serre et/ou à l'augmentation de la capacité et de la production d'énergie renouvelable. Le Fonds réalisera des investissements dans ou liés au secteur de l'énergie, à l'exception de l'exploration, de la production, du transport et du stockage du charbon, du pétrole, du gaz naturel et de l'énergie nucléaire (cependant, cela n'exclura pas les investissements dans ou liés à la capture, l'utilisation ou le stockage du carbone).</p> <p>Tous les investissements du Fonds seront alignés sur l'objectif d'investissement durable du Fonds. Le suivi des indicateurs de durabilité utilisés pour mesurer la réalisation de l'objectif d'investissement durable est effectué en obtenant régulièrement des données directement auprès des sociétés de portefeuille. La réalisation de l'objectif d'investissement durable du Fonds ne devrait pas être affectée par des limitations de méthodologies ou de données.</p> <p>La diligence raisonnable avant investissement et l'engagement après</p>

	<p>investissement sont appliqués pour atteindre l'objectif d'investissement durable du Fonds, comme décrit plus en détail dans la “responsible investment policy” de HitecVision.</p> <p><i>[Veuillez noter que le texte ci-dessus a été traduit en utilisant l'intelligence artificielle (IA) - En cas de divergences entre le texte anglais et cette traduction, le texte anglais prévaudra]</i></p>
Italian	<p>HitecVision New Energy Fund 2 (il Fondo) è un fondo di investimento alternativo chiuso che ricerca impegni solo da investitori professionali.</p> <p>L'obiettivo di investimento sostenibile del Fondo è quello di contribuire alla mitigazione dei cambiamenti climatici investendo in società di portafoglio con il potenziale di contribuire alla riduzione delle emissioni globali di gas serra e/o all'aumento della capacità e produzione di energia rinnovabile. Il Fondo effettuerà investimenti nel settore energetico o collegati ad esso, ad eccezione dell'esplorazione, produzione, trasporto e stoccaggio di carbone, petrolio, gas naturale ed energia nucleare (tuttavia, ciò non esclude investimenti in o collegati alla cattura, utilizzo o stoccaggio del carbonio).</p> <p>Tutti gli investimenti del Fondo saranno in linea con l'obiettivo di investimento sostenibile del Fondo. Il monitoraggio degli indicatori di sostenibilità utilizzati per misurare il raggiungimento dell'obiettivo di investimento sostenibile viene effettuato ottenendo regolarmente dati direttamente dalle società di portafoglio. Il raggiungimento dell'obiettivo di investimento sostenibile del Fondo non dovrebbe essere influenzato da limitazioni nelle metodologie o nei dati.</p> <p>La due diligence pre-investimento e l'engagement post-investimento sono applicati per raggiungere l'obiettivo di investimento sostenibile del Fondo come ulteriormente descritto nella “responsible investment policy” di HitecVision.</p> <p><i>[Si noti che il testo sopra è stato tradotto utilizzando l'Intelligenza Artificiale (IA) - In caso di discrepanze tra il testo in inglese e questa traduzione, prevarrà il testo in inglese]</i></p>
German	<p>HitecVision New Energy Fund 2 (der Fonds) ist ein geschlossener, alternativer Investmentfonds, der sich ausschließlich um Verpflichtungen von professionellen Investoren bemüht.</p> <p>Das nachhaltige Investitionsziel des Fonds besteht darin, zur Milderung des Klimawandels beizutragen, indem in Portfoliounternehmen investiert wird, die das Potenzial haben, zur Reduzierung der globalen Treibhausgasemissionen und/oder zur Steigerung der Kapazität und Produktion erneuerbarer Energien beizutragen. Der Fonds wird Investitionen im Energiebereich oder damit verbunden tätigen,</p>

	<p>ausgenommen die Exploration, Produktion, Transport und Lagerung von Kohle, Öl, Erdgas und Kernenergie (dies schließt jedoch Investitionen in oder im Zusammenhang mit der Kohlenstoffabscheidung, -nutzung oder -speicherung nicht aus).</p> <p>Alle Investitionen des Fonds werden im Einklang mit dem nachhaltigen Investitionsziel des Fonds stehen. Die Überwachung der Nachhaltigkeitsindikatoren, die zur Messung der Erreichung des nachhaltigen Investitionsziels verwendet werden, erfolgt durch regelmäßiges Erhalten von Daten direkt von den Portfoliounternehmen. Die Erreichung des nachhaltigen Investitionsziels des Fonds wird voraussichtlich nicht durch Einschränkungen der Methodik oder der Daten beeinträchtigt.</p> <p>Die Sorgfaltspflicht vor der Investition und das Engagement nach der Investition werden angewandt, um das nachhaltige Investitionsziel des Fonds zu erreichen, wie in der “responsible investment policy” von HitecVision weiter beschrieben.</p> <p><i>[Bitte beachten Sie, dass der obige Text mit Hilfe von Künstlicher Intelligenz (KI) übersetzt wurde - Bei Abweichungen zwischen dem englischen Text und dieser Übersetzung hat der englische Text Vorrang]</i></p>
<p>Dutch</p>	<p>HitecVision New Energy Fund 2 (het Fonds) is een gesloten, alternatief beleggingsfonds dat alleen toezeggingen zoekt van professionele beleggers.</p> <p>Het duurzame investeringsdoel van het Fonds is bijdragen aan de mitigatie van klimaatverandering door te investeren in portefeuillebedrijven met het potentieel om bij te dragen aan de vermindering van wereldwijde broeikasgasemissies en/of het vergroten van de capaciteit en productie van hernieuwbare energie. Het Fonds zal investeringen doen in of gerelateerd aan de energiesector, behalve voor exploratie, productie, transport en opslag van kolen, olie, aardgas en kernenergie (dit sluit echter investeringen in of gerelateerd aan koolstofafvang, -gebruik of -opslag niet uit).</p> <p>Alle investeringen van het Fonds zullen in lijn zijn met het duurzame investeringsdoel van het Fonds. Het monitoren van de duurzaamheidsindicatoren die gebruikt worden om het bereiken van het duurzame investeringsdoel te meten, wordt gedaan door regelmatig gegevens rechtstreeks van de portefeuillebedrijven te verkrijgen. Het bereiken van het duurzame investeringsdoel van het Fonds wordt niet verwacht te worden beïnvloed door beperkingen in methodologieën of gegevens.</p>

	<p>Pre-investment due diligence en post-investment engagement worden toegepast om het duurzame investeringsdoel van het Fonds te bereiken, zoals nader beschreven in het «responsible investment policy» van HitecVision.</p> <p><i>[Let op dat bovenstaande tekst is vertaald met behulp van Kunstmatige Intelligentie (AI) - In geval van discrepanties tussen de Engelse tekst en deze vertaling, gaat de Engelse tekst voor]</i></p>
Spanish	<p>HitecVision New Energy Fund 2 (el Fondo) es un fondo de inversión alternativo cerrado que busca compromisos solo de inversores profesionales.</p> <p>El objetivo de inversión sostenible del Fondo es contribuir a la mitigación del cambio climático invirtiendo en compañías de cartera con el potencial de contribuir a la reducción de las emisiones globales de gases de efecto invernadero y/o aumentar la capacidad y producción de energía renovable. El Fondo realizará inversiones en o relacionadas con el sector energético, excepto la exploración, producción, transporte y almacenamiento de carbón, petróleo, gas natural y energía nuclear (sin embargo, esto no excluirá inversiones en o relacionadas con la captura, uso o almacenamiento de carbono).</p> <p>Todas las inversiones del Fondo estarán alineadas con el objetivo de inversión sostenible del Fondo. El seguimiento de los indicadores de sostenibilidad utilizados para medir el logro del objetivo de inversión sostenible se realiza obteniendo regularmente datos directamente de las compañías de cartera. No se espera que el logro del objetivo de inversión sostenible del Fondo se vea afectado por limitaciones en las metodologías o datos.</p> <p>La diligencia debida previa a la inversión y el compromiso posterior a la inversión se aplican para alcanzar el objetivo de inversión sostenible del Fondo, como se describe más adelante en la “responsible investment policy” de HitecVision.</p> <p><i>[Tenga en cuenta que el texto anterior ha sido traducido utilizando Inteligencia Artificial (AI) - En caso de discrepancias entre el texto en inglés y esta traducción, el texto en inglés prevalecerá]</i></p>
Turkish	<p>HitecVision New Energy Fund 2 (Fon), yalnızca profesyonel yatırımcılardan taahhütler arayan kapalı uçlu, alternatif bir yatırım fonudur.</p> <p>Fonun sürdürülebilir yatırım amacı, küresel sera gazı emisyonlarını</p>

	<p>azaltmaya ve/veya yenilenebilir enerji kapasitesini ve üretimini artırmaya katkıda bulunabilecek potansiyele sahip portföy şirketlerine yatırım yaparak iklim değişikliğini hafifletmeye katkıda bulunmaktadır. Fon, kömür, petrol, doğal gaz ve nükleer enerjinin keşfi, üretimi, taşınması ve depolanması dışında, enerji sektörüne veya bu sektörle bağlantılı alanlara yatırım yapacaktır (ancak bu, karbon yakalama, kullanımı veya depolanması ile bağlantılı yatırımları dışlamayacaktır).</p> <p>Fonun tüm yatırımları, Fonun sürdürülebilir yatırım amacıyla uyumlu olacaktır. Sürdürülebilir yatırım amacına ulaşımın ölçülmesinde kullanılan sürdürülebilirlik göstergelerinin izlenmesi, düzenli olarak portföy şirketlerinden doğrudan veri elde edilerek yapılır. Fonun sürdürülebilir yatırım amacına ulaşımının metodolojilere veya verilere ilişkin sınırlamalardan etkilenmesi beklenmemektedir.</p> <p>Yatırım öncesi titizlik ve yatırım sonrası katılım, HitecVision'ın "responsible investment policy" daha ayrıntılı olarak açıklandığı üzere, Fonun sürdürülebilir yatırım amacına ulaşmak için uygulanmaktadır.</p> <p><i>[Not edin ki yukarıdaki metin Yapay Zeka (AI) kullanılarak çevrilmiştir - İngilizce metin ile bu çeviri arasında herhangi bir tutarsızlık olması durumunda, İngilizce metin önceliklidir]</i></p>
Slovenian	<p>HitecVision New Energy Fund 2 (Sklad) je zaprt, alternativni investicijski sklad, ki išče zaveze samo od profesionalnih vlagateljev.</p> <p>Trajnostni investicijski cilj Sklada je prispevati k ublažitvi podnebnih sprememb z vlaganjem v portfeljska podjetja z možnostjo prispevanja k zmanjšanju globalnih emisij toplogrednih plinov in/ali povečanju zmogljivosti in proizvodnje obnovljive energije. Sklad bo vlagal v sektor energije ali povezanih področij, razen za raziskovanje, proizvodnjo, prevoz in skladiščenje premoga, nafte, zemeljskega plina in jedrske energije (vendar to ne izključuje vlaganj v ali povezanih s zajemanjem, uporabo ali skladiščenjem ogljika).</p> <p>Vsa vlaganja Sklada bodo usklajena s trajnostnim investicijskim ciljem Sklada. Spremljanje trajnostnih indikatorjev, ki se uporabljajo za merjenje doseganja trajnostnega investicijskega cilja, poteka z rednim pridobivanjem podatkov neposredno od portfeljskih podjetij. Doseganje trajnostnega investicijskega cilja Sklada naj ne bi bilo vplivano zaradi omejitev metodologij ali podatkov.</p> <p>Za doseganje trajnostnega investicijskega cilja Sklada se uporabljajo skrbnost pred vlaganjem in angažiranost po vlaganju, kot je podrobneje opisano v «responsible investment policy».</p>

Greek	<p>HitecVision New Energy Fund 2 (το Ταμείο) είναι ένα κλειστό, εναλλακτικό επενδυτικό ταμείο που αναζητά δεσμεύσεις μόνο από επαγγελματίες επενδυτές.</p> <p>Ο βιώσιμος επενδυτικός στόχος του Ταμείου είναι να συμβάλει στην μετρίαση της κλιματικής αλλαγής επενδύοντας σε εταιρείες χαρτοφυλακίου με τη δυνατότητα να συμβάλουν στη μείωση των παγκόσμιων εκπομπών αερίων του θερμοκηπίου και/ή στην αύξηση της ικανότητας και παραγωγής ανανεώσιμης ενέργειας. Το Ταμείο θα πραγματοποιήσει επενδύσεις στον ενεργειακό τομέα ή σε σχετικούς τομείς, εκτός από την εξερεύνηση, παραγωγή, μεταφορά και αποθήκευση άνθρακα, πετρελαίου, φυσικού αερίου και πυρηνικής ενέργειας (ωστόσο, αυτό δεν θα αποκλείει επενδύσεις σε ή σχετικές με τη σύλληψη, χρήση ή αποθήκευση άνθρακα).</p> <p>Όλες οι επενδύσεις του Ταμείου θα είναι συντονισμένες με τον βιώσιμο επενδυτικό στόχο του Ταμείου. Η παρακολούθηση των δεικτών βιωσιμότητας που χρησιμοποιούνται για τη μέτρηση της επίτευξης του βιώσιμου επενδυτικού στόχου γίνεται με την τακτική λήψη δεδομένων απευθείας από τις εταιρείες χαρτοφυλακίου. Δεν αναμένεται ότι η επίτευξη του βιώσιμου επενδυτικού στόχου του Ταμείου θα επηρεαστεί από περιορισμούς στις μεθοδολογίες ή στα δεδομένα.</p> <p>Η επιμέλεια πριν από την επένδυση και η δέσμευση μετά την επένδυση εφαρμόζονται για την επίτευξη του βιώσιμου επενδυτικού στόχου του Ταμείου, όπως περιγράφεται περαιτέρω στην πολιτική υπεύθυνης</p>

	<p>επένδυσης της HitecVision (the “responsible investment policy”).</p> <p><i>[Σημειώστε ότι το παραπάνω κείμενο έχει μεταφραστεί χρησιμοποιώντας Τεχνητή Νοημοσύνη (AI) - Σε περίπτωση ασυμφωνίας μεταξύ του αγγλικού κειμένου και αυτής της μετάφρασης, το αγγλικό κείμενο έχει προτεραιότητα]</i></p>
Croatian	<p>HitecVision New Energy Fund 2 (Fond) je zatvoreni, alternativni investicijski fond koji traži obveze samo od profesionalnih ulagača.</p> <p>Održivi investicijski cilj Fonda je doprinijeti ublažavanju klimatskih promjena ulaganjem u portfeljske tvrtke s potencijalom doprinosa smanjenju globalnih emisija stakleničkih plinova i/ili povećanju kapaciteta i proizvodnje obnovljive energije. Fond će ulagati u ili povezano s energetske sektorom, osim za istraživanje, proizvodnju, prijevoz i skladištenje ugljena, nafte, prirodnog plina i nuklearne energije (međutim, to ne isključuje ulaganja u ili povezana s hvatanjem, uporabom ili skladištenjem ugljika).</p> <p>Sva ulaganja Fonda bit će usklađena s održivim investicijskim ciljem Fonda. Praćenje pokazatelja održivosti koji se koriste za mjerenje postizanja održivog investicijskog cilja vrši se redovitim dobivanjem podataka izravno od portfeljskih tvrtki. Postizanje održivog investicijskog cilja Fonda ne bi trebalo biti pogođeno ograničenjima metodologija ili podataka.</p> <p>Predinvesticijska dubinska analiza i postinvesticijsko angažiranje primjenjuju se kako bi se postigao održivi investicijski cilj Fonda, kako je dalje opisano u “responsible investment policy” HitecVision.</p> <p><i>[Napomena: gore navedeni tekst je preveden korištenjem Umjetne Inteligencije (AI) - U slučaju bilo kakvih nesuglasica između engleskog teksta i ovog prijevoda, engleski tekst ima prednost]</i></p>
